THE SERIES AT A GLANCE

Genre: Family Drama **Format:** One-Hour Television Drama **Season One:** 5 Episodes

Primary Locations: Phoenix, Arizona • Houston, Texas • Thailand

SERIES LOGLINE

Three estranged triplet brothers living drastically different lives are forced back together when their mother becomes seriously ill, forcing them to confront years of resentment, sacrifice, and unresolved family wounds before they lose the one person who has always kept them connected.

SERIES PREMISE

Full Circle is a character-driven family drama about three brothers who grew up together but became strangers as adults. Mark stayed close to home. Michael joined the U.S. Army and eventually relocated to Texas. Malcolm pursued an ambitious international business career that takes him away from the family and eventually toward Thailand. Their physical distance reflects a deeper emotional separation.

The series begins when their mother becomes seriously ill. Her condition forces the brothers to return to the emotional crossroads they have avoided for years. They must decide whether they can forgive one another, understand one another, and become a family again.

HOW DO YOU FIND YOUR WAY BACK TO THE PEOPLE YOU LEFT BEHIND?

TONE & VISUAL WORLD

Full Circle is an emotional, grounded family drama with cinematic storytelling. Conflict is personal rather than exaggerated, and the strongest scenes often come from what the characters do not say.

PHOENIX HOME	Warm, open, familiar. Phoenix represents childhood, memory, and the life the brothers shared.
HOUSTON SERVICE	Grounded and transitional. Houston reflects Michael's attempt to rebuild an identity after military service.
THAILAND AMBITION	International, unfamiliar, expansive. Thailand represents Malcolm's ambition and the future he created away from family.

CENTRAL THEMES

Family. Shared history remains the emotional foundation. **Identity.** Each brother has created a self outside the family. **Sacrifice.** Each believes he gave something up. **Success.** The series asks whether success means money, career, stability, service, or presence. **Forgiveness.** Healing is a process. **Pride.** Pride keeps the brothers from saying what they feel. **Redemption.** Growth means choosing not to repeat the past.

THE HILL BROTHERS

MALCOLM HILL AMBITION	Phoenix / Thailand • International Business Disciplined, intelligent, organized, and professionally ambitious. His success has also become a shield for loneliness and disconnection. Internal Conflict: Must decide whether success is worth sacrificing his family. Character Arc: Learns that success without meaningful relationships can become another form of failure.
MARK HILL HOME	Phoenix, Arizona The brother who stayed. He values family and presence, but years of carrying responsibility have hardened into resentment. Internal Conflict: Must learn that physical presence does not automatically equal emotional availability. Character Arc: Confronts his resentment and accepts that his definition of family responsibility is not the only one.
MICHAEL HILL SERVICE	Houston, Texas • U.S. Army Veteran The calm mediator. Military discipline taught him control, but it also made it difficult to express his own emotions. Internal Conflict: Must figure out who he is when he is no longer defined by service. Character Arc: Stops trying to heal everyone else while ignoring his own unresolved issues.

THE EMOTIONAL CENTER

THE MOTHER

The brothers' mother is the emotional center of Full Circle. She represents the childhood they shared and the family bond that existed before their adult lives separated them. Her illness is the catalyst for the series. She has always believed that their greatest accomplishment should be their relationship with one another.

THE BROTHERS' RELATIONSHIP

Mark represents **HOME**. Michael represents **SERVICE**. Malcolm represents **AMBITION**. None of these paths is inherently wrong. The tension comes from each brother believing his path makes the most sense.

They share the same mother. The same childhood. The same memories. And the same unresolved pain.

VISUAL IMAGE	A faded family photograph becomes a recurring visual reminder of the brothers before distance, pride, and adult responsibilities separated them.

PILOT — EPISODE 101

“THE CALL HOME”

Malcolm is preparing for the biggest professional opportunity of his life: an international business summit in Bangkok. His flight leaves in three hours. Everything appears to be going according to plan until Mark calls and says their mother is seriously ill.

The call becomes an argument about family and priorities. Mark believes Malcolm will choose work again. Malcolm insists that his success was partly motivated by wanting to make their mother proud. Michael later calls from Houston. Instead of pressuring Malcolm, he asks which decision he will regret the least.

After the call, Malcolm finds an old photograph of himself, Mark, Michael, and their mother. He places it inside his suitcase beside his business materials. At his vehicle, one road leads to the airport. The other leads to the hospital.

THE AUDIENCE NEVER SEES WHICH ROAD HE CHOOSES.

FINAL IMAGE	Malcolm stands between two roads: one toward the airport, one toward the hospital. The image establishes the show's central dramatic device: choices have consequences.

SERIES-LEVEL QUESTION

What do we leave behind, and who do we become along the way?

VISUAL MOTIFS & SERIES ENGINE

THE ROAD

Choice and direction. Malcolm's pilot decision establishes the road as a recurring symbol: every major choice affects not only the individual brother, but the whole family.

THE FAMILY PHOTOGRAPH

A physical reminder of the family before distance and resentment. It represents what was lost—and what may still be recoverable.

THE SUITCASE

Malcolm's conflict between past and future. Career materials represent the life he built; the photograph represents the life he left behind.

PHOENIX

Home and emotional gravity. No matter how far the brothers travel, Phoenix remains the center of their shared history.

SERIES ENGINE

Every time the brothers try to move forward individually, their shared history pulls them back together. Episodes can move through family conflict, career challenges, personal identity, romantic relationships, military transition, financial pressure, unresolved trauma, rebuilding trust, forgiveness, and legacy.

AUDIENCE & SERIES PROMISE

Full Circle is designed for viewers who connect with character-driven stories about family, relationships, identity, and personal growth—especially those who recognize family separation, sibling conflict, career-versus-family choices, military transition, and the challenge of reconnecting as adults.

Every episode should deliver an emotional question that forces the brothers to confront themselves. The show is not simply about whether they reconcile. It is about why they became separated and whether people who have hurt one another can still find their way back.

**MARK IS THE PERSON WHO STAYED.
MICHAEL IS THE PERSON WHO SERVED.
MALCOLM IS THE PERSON WHO LEFT.**

Underneath those differences are three brothers who still want the same thing: to be understood, to be forgiven, and to belong.

FINAL SERIES STATEMENT	Sometimes distance is measured in miles. Sometimes it is measured in years. Sometimes it is measured in everything we are afraid to say. Mark, Michael, and Malcolm may have built separate lives, but they can never completely separate themselves from the family that created them. Their journey is not about returning to the people they were. It is about becoming the people they need to be.
